4" Flip'n OUT

A great flip'n bait with a soft, sturdy, compact, ribbed body and paddle appendages for maximum water displacement to help bass find an easy meal in thick cover. Its two longer claw-like paddles and Mister Twister® Curly Tail® legs generate a lifelike, fleeing motion that's irresistible. The body's recessed centerline creates perfect hook placement.

What's one feature setting this bait apart? The body's smooth, scaled finish on one side, and deep, textured ribs on the other. By rigging the 4" Flip'n OUT with the hook on the smooth side the lure will fall a little faster than if rigged on the ribbed side. Testing revealed a 17% difference in fall rate between the two rigging options!

4" Sassy[®] Swimmer

The Mister Twister 4" Sassy Swimmer is a ring style swim bait designed to entice even the most finicky of fish. The soft plastic formulation we use enhances the tail's swimming action without causing drag when used on a bladed jig, which allows no additional pressure on the blade's action. The Sassy Swimmer has proved that the Shakey Head, Tokyo Rig and drop shot techniques are all very productive, but this super versatile bait can also be used on a Jighead, weighted belly hook or under a spin Jighead.

4" Tri-Com Sassy[®] Swimmer

The Mister Twister 4" Tri-Com Sassy Swimmer is a ring style swim bait designed to entice even the most finicky of fish. The soft plastic formulation we use enhances the tail's swimming action without causing drag when used on a bladed jig, which allows no additional pressure on the blade's action. The Sassy Swimmer has proved during testing that the Shakey Head, Tokyo Rig and drop shot techniques are all very productive, but this super versatile bait can also be used on a Jighead, weighted belly hook or under a spin Jighead. The Sassy Swimmer also makes for a great trailer application on spinner baits, swim jigs or chatter bait style lures.

The Exude™ 4 1/4" D.A.R.T. uses the ten distinct ribs on its underside, to mimic juvenile bait fish. How? First, they displace water, creating turbulence that kicks up bottom sediment, just like a feeding baitfish. Second, the ribs increase surface area, allowing maximum release of Exude™ formula and creating a scent that predators recognize as food.

Plus, the D.A.R.T.'s round solid body gives this lure enough mass to make casting or skipping it a breeze, even against a stiff wind. On a jighead, the D.A.R.T. will stand up from the bottom attracting redfish, trout, snook, and flounder.
